

Blanco Management Console (On-Premise)

Simplifying access to erasure and diagnostics activity, communications, and reports while enhancing security and sustainability

Why Blanco

Blanco Technology Group (AIM: BLTG), a carbon-neutral supplier, provides organizations with secure, compliant, and automated solutions that accelerate the transition to the circular economy. Our precise device diagnostics help move used IT assets confidently into the circular economy, enabling enterprises, IT asset disposition (ITAD) vendors and recyclers, and mobile industry stakeholders to operate more sustainably.

Globally approved, recommended and certified by governing and industry bodies around the world, Blanco is the industry standard in data erasure and mobile lifecycle solutions. With 35+ patented or patent-pending ideas, we continue to grow the number of innovative solutions global companies can rely on to accelerate operations, secure their data, and grow their businesses.

[View Our Certifications](#)

Purpose-built as a central interaction point between our customers and our products, Blanco Management Console (On-Premise) offers a secure overview of all your Blanco solutions, fulfilling all your compliance and sustainability requirements with no need to work in the cloud.

Blanco Management Console (On-Premise) is a central point to monitor all activity undertaken by your chosen Blanco solutions. Users can manage diagnostics reports, handle licenses, and receive tamper-proof erasure certificates to aid audit and compliance processes. Depend upon reliable, secure on-premise software with multiple self-service and support options, plus a user-friendly product knowledge base.

Key Benefits

- ✓ View and manage your product-related activity in one secure place, with precise notifications and reports on results
- ✓ Receive a unified customer experience across all Blanco products
- ✓ Enjoy quick, simple access to product licenses and interfaces to increase efficiency
- ✓ Make use of fast and flexible deployment options with centralized reporting across sites and departments
