

Blanco Removable Media Eraser

Secure, Permanent Data Erasure for Removable Media Devices

Why Blanco

Blanco is the industry standard in data erasure and mobile device diagnostics software. Blanco data erasure solutions provide thousands of organizations with the tools they need to add an additional layer of security to their endpoint security policies through secure erasure of IT assets. All erasures are verified and certified through a tamper-proof audit trail.

Blanco data erasure solutions have been tested, certified, approved and recommended by 15+ governing bodies and leading organizations around the world. No other data erasure software can boast this level of compliance with the rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

Blanco Removable Media Eraser protects against loss or theft of data from removable media supported by Microsoft Windows.

With Blanco Removable Media Eraser, you can permanently erase data using regulatory standards from removable media, including USB drives, SD memory cards, micro drives, CompactFlash cards, MP3 players and other flash memory storage devices in order to prove 100% compliance. Delivered to multiple users as a simple desktop application or MSI package, you can reduce the risk of data loss and fraud using security best practices through single data erasure or simultaneous erasure processes.

Key Benefits

Securely Erase Data in Live Environments, Flash Drives and Other Removable Media

- Permanently wipe 24+ flash drives, rapidly and simultaneously.
- Create on-demand, centralized data erasure stations within your organization.

Flexible User Management for Process Efficiency and Reduced Costs

- Distribute among multiple users through a simple desktop application or MSI package.
- Enhance process management by simultaneously erasing multiple devices and display the status of all connected units.
- Save post-erasure report locally or integrate with Blanco Management Console.

Fully Compliant and Tamper-Proof Reporting

- Automatically generate customized post-erasure reports, including detailed hardware information, for a tamper-proof audit trail.
- Strengthen knowledge and awareness of internal policies and processes across the business with scheduling and integrated erasure routines.
- Stay compliant with industry standards and regulations, including PCI DSS, HIPAA, SOX, ISO 27001, ISO 27040 and EU General Data Protection Regulation.
