

Blanco Xcelerate

Purpose-built for small to mid-tier mobile processors and wholesalers requiring plug and play, portable hardware and software to process any volume of devices quickly

Why Blanco Xcelerate

Blanco Xcelerate is based on our leading Blanco Mobile Diagnostics & Erasure software, which allows mobile processors to easily, quickly, and accurately process used mobile devices to identify any faults and determine overall value. By packaging Blanco Mobile Diagnostics & Erasure software into a portable device, we remove the difficulty of sourcing and configuring hardware and software and allow you to scale quickly.

[View Our Certifications](#)

Blanco Xcelerate is a new product, developed as a cost effective, plug and play, secure, and easy-to-use solution for small to mid-tier mobile processors who face difficulties sourcing, configuring, and maintaining hardware and software when processing a wide scope of assets.

Providing our leading Blanco Mobile Diagnostics & Erasure (BMDE) software pre-loaded onto this new hardware device, Blanco Xcelerate is purpose-built for mobile processors and wholesalers who process any volume of mobile devices before they enter the secondhand market.

Key Benefits

With Blanco Xcelerate, you'll receive:

- ✓ Blanco-supplied hardware and software
- ✓ Plug and play, out of the box convenience
- ✓ The fastest, most effective iOS & Android erasure (with validation) on the market
- ✓ A full suite of easily configurable diagnostic tests to fit your organization's needs
- ✓ The ability to create simple or complex workflows for grading, erasure and diagnostics*
- ✓ A certified, tamper-proof audit trail, backed by Blanco's digitally signed and cloud stored Certificate of Erasure

* Complex/customized workflows would need to be added on at extra cost

Blanco Mobile Workflow

Create custom workflows that guide operators to grade, value and sort each device according to your policies and requirements

- ✓ Automate processes across the mobile lifecycle
- ✓ Integrate with your current systems (e.g., WMS, ERP)
- ✓ Access numerous templates for grading and diagnostics
