# Blancco Apple Erasure

Unique, purpose-built software to provide effective, reliable data sanitization solutions for all Apple devices including Apple M1, M2, M3, T2, iPhones, iPads, Apple Watches and AirPods.

**ITADs and Mobile Processors of Apple devices often encounter data erasure and diagnostics issues entirely unique from those faced by standard PCs, laptops, and non-Apple mobile devices, with software incompatibilities that render accurate erasure difficult to achieve.**

Those users can now take advantage of our new, integrated solution designed specifically for their needs. Blancco works across the entire data lifecycle to provide organizations processing Apple devices with secure data sanitization, assistance to prove regulatory compliance, and the confidence to re-sell, re-purpose or dispose of data assets at the end-of-life stage.

## Key Benefits

With Blancco Apple Erasure, you'll receive:

- ☑ The most certified data erasure software in the world

- ☑ Guarantees that data has been erased from any Apple device

- ☑ Erasure for Apple M1, M2, M3 and T2 devices, including full cryptographic erasure for Macs

- ☑ Full Apple watch series compatability for secure erasure

- ☑ A full suite of easily configurable diagnostic tests to fit your organization's needs [1]

- ☑ A certified tamper-proof audit trail, backed by Blancco's digitally signed Certificate of Erasure

[1] Diagnostic tests available only for iPhones and iPads

## Blancco Products Suitable For Apple Devices

Blancco offers comprehensive erasure and diagnostics software for a wide range of Apple devices including Apple M1s, M2s, M3s, T2s, iPhones, iPads and Apple Watches to suit your needs and work in tandem with your

processing set up. Additionally, custom workflows can be added to help guide operators to grade, value and sort each device according to your policies and requirements, more quickly and easily. We continually monitor and upgrade our software, to keep pace with Apple products and releases. Blancco products available as part of this solution include:

- ☑ Blancco Eraser for Apple Devices - the fastest, most effective and fully verified erasure on the market, specially configured for Mac erasure, supporting iPhones, iPads, Apple Watches, M1s, M2s and T2s (Catalina macOS 10.15.6 or newer)

- ☑ Blancco LUN Eraser - Offering erasure in active storage environments without compromising operating systems, ensuring LUNs are properly sanitized, supporting M1s, M2s, M3s and T2s

- ☑ Blancco Drive Eraser - permanent sensitive data erasure from servers, laptops, desktops, and drives, supporting T2s

**Why Blancco Apple Erasure?**

Blancco data erasure and diagnostics solutions provide thousands of organizations with the tools they need to manage the processing of Apple devices quickly and effectively to the highest industry standards. Blancco Apple Erasure is purpose built and the only solution you need to take care of all your Apple device processing needs, with all erasures verified and certified through a tamper-proof audit trail.

Globally approved, recommended, and certified by governing and industry bodies around the world, Blancco is the industry standard in data erasure and mobile lifecycle solutions. With 35+ patented or patent-pending ideas, we continue to grow the number of innovative solutions global companies can rely on to accelerate operations, secure their data, and grow their businesses. **View our certifications**
